

A LOUISIANA RIGHT TO LIFE EDUCATIONAL REPORT: THE VALUES AND WORK OF PLANNED PARENTHOOD

PLANNED PARENTHOOD IS AGAINST THE VALUES OF LOUISIANA.

- 1. Abortion before Adoption:** As the nation's largest abortion provider, Planned Parenthood in 2005-2006 performed nearly 300,000 abortions across the country. In its annual report for that year, PP reported ZERO adoption referrals (*PPFA 2006 Annual Report*). While Louisiana Planned Parenthood does not yet provide surgical abortions, they do refer to local abortion facilities and provide abortifacient drugs to teens without parental involvement.
- 2. Not-for-Profit?** In 2005-2006, Planned Parenthood, a "non-profit" corporation, reported profits of \$55.8 million while it received over \$300 million in state and federal tax dollars (*PPFA 2006 Annual Report*).
- 3. Racial Motivation:** Not only was Planned Parenthood founded by known eugenicist Margaret Sanger, but PP was recently caught on tape by the L.A. Advocate accepting donations expressly for the purposes of aborting "black babies." (*View the video online at <http://www.prolifelouisiana.org/education/abortion/planned-parenthood.html>* .)

PLANNED PARENTHOOD IS EXPANDING IN OUR AREA.

On July 1, 2006, Planned Parenthood of Louisiana and the Mississippi Delta, Inc, merged with the much larger and wealthier Planned Parenthood of Houston and Southeast Texas, Inc.

Shortly after, the strengthened Planned Parenthood purchased a six-story building in Houston that will become the largest *free-standing abortion facility in the Western Hemisphere* with 640 sq feet **dedicated to performing late-term abortions.**

Positioned outside the gates of the University of Houston, the new abortion facility is situated in a low-income minority district of Houston and is expected to open in the Fall of 2008.

This expansion shows that:

- 1. Planned Parenthood wants to perform late term abortions on the women and unborn children of Texas and nearby Louisiana.**
- 2. There is nothing to stop the merged Planned Parenthood from expanding beyond their two facilities in Louisiana that lead women to the destructive decision of abortion.**

**PLANNED PARENTHOOD:
AGAINST THE VALUES OF LOUISIANA...AND EXPANDING.**
