 Say **NO** to **RATIONED** Health Care  
 with **TAX FUNDED ABORTIONS!**  
 \*\*\*\*\*

**Do you want tax-funded abortions?  
 Do you want your health care to be rationed?**  
*the situation...*

This Summer (2009), Congress is considering health care reform legislation that could threaten both the beginning and end of human life through **tax-funded abortions** and **rationed** health care.

The Congressional leadership is trying to fast track this legislation through Congress. **Why?** *They don't want you to find out their rationed reform will require you to pay for abortions with your taxes!*

*our response...*

If you don't want to be forced to pay for abortion-on-demand with your taxes, or you don't want to see the elderly's healthcare to be rationed, your voice heard through these simple ways:

1. Spread the word about how health care reform could threaten human life. Educate your friends and family.
2. Contact your Senators and Congressman and say:

***"Please oppose any health care reform that does not explicitly exclude rationed health care and tax funded abortions."***

**Contact Your Senator or Congressman:**
